Re: WC Docket No. 06-74

Dear FCC Commissioners:

My purpose in writing is to ask your expeditious approval of the AT&T and BellSouth merger. I believe this merger to be in the public interest.

As CEO of Florida Therapy Services, Inc., much of our service area is in rural Florida. Needless to say access to medical services is limited. The merger, with its promise to bring affordable and universal broadband to rural and low income areas, will greatly enhance our ability to provide cost effective medical care to those with the greatest needs.

I urge the Commission to quickly conclude its proceedings and approve the AT&T / BellSouth merger so that rural citizens can experience the benefits of more rapid deployment of broadband technologies that will help improve the quality of their medical care.

Sincerely,

Rollin Cable, CEO
Florida Therapy Services, Inc.
